COORDINATED SUPPORTS

HELP: cross sector

- **Parents seeking support from more areas of the NAZ Family Support team were more likely to complete goals and goal steps than those involved in only one area of the pipeline**
 - **31% of families who received Housing Navigation also received Career/Finance Navigation**

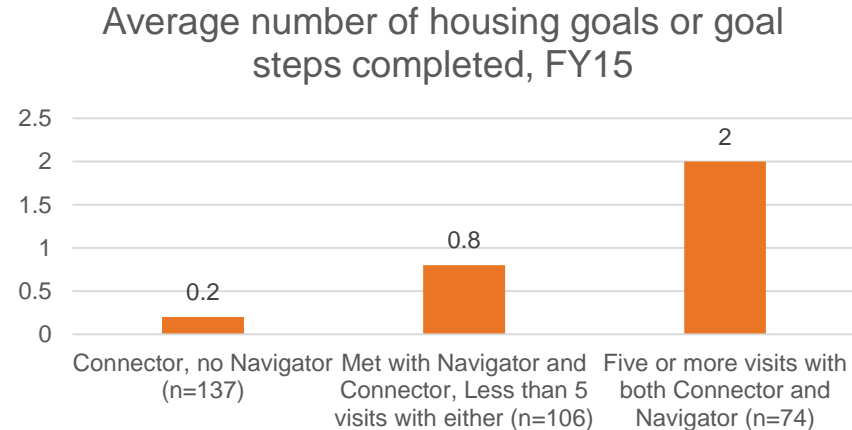

11. Goal completion among families engaged in Whole Family Support Navigation, FY2015

	Percent of families that completed at least one Housing goal or step	Average number of Housing goals or steps completed
Housing Navigation only (N=122)	43%	1.0*
Housing and Career/Finance Navigation only (N=50)	66%	1.6*
Housing and Behavioral Health Navigation only (N=15)	48%	0.8
Housing, Behavioral Health, and Career/Finance Navigation (N=12)	68%	1.8

Asterisks denote that the difference is statistically significant at the 10 percent level. No other differences in average number of goals or steps are statistically significant.

COORDINATED SUPPORTS HELP: navigation and connection

- **Families who meet more frequently with their Housing Navigator and Connector complete more goals or goals steps**

- **Note: participation in Navigation may imply higher readiness or need to address housing goals**

COORDINATED SUPPORTS HELP: funding and navigation

- **A higher percent of families complete goals or goals steps when they have funding options**

INCONCLUSIVE: PARENT EDUCATION

- **Only 34% of families participating in Housing Navigation completed any Family Academy course**
- **Goal completion is not significantly different between those who completed a course and those who did not**

% of families completing goal or goal step	
	Received housing navigation
Completed FA course	50%
Has not completed FA course	51%

Key Questions

KEY QUESTION
