## TERMINOLOGY

(These definitions level set how we will approach collaborative evaluation. Actual indicators appear in the action area sections 01 - 05)

What will improve?

## RESULT

*A population condition of well being.*

The NAZ Result is described in a two-generation approach:

- All children ready for college
  - End generational poverty
- 

Is anybody better off?

## OUTCOMES

*Performance Measure: Shows whether or not results are achieved.*

Overall collaborative process implementing all Results Plan elements together will produce the following measures (all tracked on the action area sections that follow):

- Proficiency at key benchmarks: Kindergarten-readiness, Reading at 3rd grade, 8th grade math
  - High school graduation rate
  - College graduation
  - Career benchmark
  - Housing and family stability
- 

How much did we do?

## OUTPUTS

*Performance Measure: Shows the quantity of solutions utilized.*

“Outputs” measure the quantity of solutions utilized. Examples are # or % or enrollment, retention, screenings, program graduations, etc..

---

How well did we do it?

## INPUTS

*Performance Measure: Shows the fidelity of implementation (inputs).*

- An “Input” is the evaluation of the strategies. They measure the fidelity of implementation.
- “Strategies” are a collection of actions taken to improve chance of positive outcomes.
- “Key Elements” are the steps to achieve the strategies.

## STRATEGY AREAS

*Grouping of strategies.*
