

# SCHOOL CHOICE 2020-2021

---

## Talking Points

- NAZ supports NAZ anchor school options because evidence indicates NAZ scholars benefit more from the relationship with their coach when they also attend a NAZ Anchor School compared to scholars who do not
- We have added support within our Anchor Schools through staff and resources
- The anchor school guidebook provides additional information about our Anchor Schools
- We encourage all families to investigate the options for each scholar in their home

## Logistics

Family Achievement Coaches are expected to contact all families on their rosters to discuss school choice for the 2020-2021 school year:

- Enter notes and log activity as normal
  - Please note if families need further support to select school, navigate existing school, or want more information about choosing a high performing school.
  - Please note families preference of school attendance: online, hybrid, in-person
- Manage goals and steps as normal. Remember, education goals are set on scholar records
